

Analysis of COP29

COP28 held in November in Baku.

It is a multilateral forum where the representative of all UN member countries gather every year and deliberate the possible ways to mitigate the devastating impacts of climate change. Unfortunately, the recent summit in Baku was overshadowed by

the **As US Elections overshadowed global media** ~~global media~~ indulged in giving attention to the elections. Not only media,

but the leaders from different countries showed little interest in this climate conference. The President of Papua New Guinea, the most climate vulnerable country, termed it a 'waste of time'. Moreover, other popular figures such as President of China, Prime Minister of India, Malaysia, and Saudi Arabia did not participate in this summit.

Apart from non-serious behaviour of countries, the participants also showed little interest in **Response** ~~boasting~~ the effort to cope with climate hazards. **Delivered** ~~President of Azerbaijan~~
