- c. Persistent climate calamity puts halt in ~~improving~~ human development
- d. ~~The~~ exclusive ~~economy~~ favouring the elite

## 5. RECOMMENDATIONS TO OVERCOME THE CHALLENGES TO PROMOTE HUMAN DEVELOPMENT AND ECONOMIC SUSTAINABILITY:

- a. To eradicate poverty
- b. To ensure political stability
- c. To promote <sup>an</sup> inclusive economy

## 6. ~~CONCLUSION:~~

# ESSAY

Human development and economic sustainability are the two interdependent pillars that shape the progress of societies. Human development focuses on improving people's well-being, provides quality education, better healthcare, and creates opportunities. While economic sustainability ensures the responsible use of resources to support long-term economic growth. Together, they form the foundation for creating equitable and resilient communities. Human development can contribute to economic sustainability by promoting awareness through education, leading to economic growth; good use of semi colon advancing human development, enhancing economic stability; and promoting gender equality, increasing women's participation in the workforce. Moreover, they can reduce poverty, minimizing fraudulent activities. Last but not least, they enhance human development which motivates the emergence of dynamic young politicians. Nevertheless, however, they face certain challenges in the form of chronic political
