

## Gender issues in Pakistan

### Introduction

Gender issues in Pakistan are ~~of~~ <sup>of perennial nature</sup> has deep roots in our society which are now becoming the part of culture. Gender and its related issues like: domestic violence, unequal wages, freedom of expression, low income and wages, exploitation of respect and dignity, Child Labour, life threats to transgenders, forced marriages, lack of higher education, less representation in political activities and many more issues which are barriers in the ~~the~~ true life of women, men, children and transgenders. Although there are several issues faced by the different genders in Pakistan. However, overcoming these challenges flourish the better version of their in society like: family upbringing in productive way, making sure the ~~the~~ <sup>providing</sup> ~~irrespective of gender~~ <sup>providing</sup> the right of freedom of expression, dignity and respect for the all walk of life, Government level implementation to crack down the child labour, providing security and safer environment to transgenders, strong law implementation on the forced marriages, access of virtual based universities for equal access of higher studies, Encouraging rural women in active political participation and many more.
