Recommendations should be more realistic

Marwan Bashra, an author of a book "Palestine - Israel: A Peace or Apartheid" explored at the end chapters of his book that Israel was the first state to introduce 'Muslim Genocide'. The suppression, aggression and oppression against Palestinians started in 1948 (Nakba). Palestinians left homes, businesses and gardens of olives due to the aggression of Israel. Moreover, the Israeli actions did not leave the Palestinians to live in the refugee camps of Jabalia, Lebanon and Jenin. The Muslim leadership has been watching the genocide of Palestinians with no actions. Although, the kings of Arabian deserts love to show the Zionists, the sea ports for business and deserts for tourism. Undoubtedly, same is the case with the current situations of Muslim Ummah. Muslim Ummah lacks strong response to the current Israeli actions. The Muslim leadership is divided on the actions of Israel. National interests of Muslim states prevent to take action against Israel. Global powers such as the U.S.A and Russia have influenced the Muslim nations. Alliances of Muslim states with Israel, economic interests and incompetent leaders can be the factors responsible for the ostrich mentality in the Ummah's response to Israel. The actions of Israel can be reduced through embargo on the weapon supplies, abolishment of veto power and united stance of nations. Thus, the aggression of Israel can be reduced in the Middle East.

To begin with the Israeli actions, the

state of Israel has been oppressing the muslims since 1948. Israel has always ~~harmed~~ peace in Palestine, Syria, Lebanon, Iraq and Yemen. The new wave of Israeli genocide started since 8 October 2023. Israel has killed 45000 Gazians, displaced 2.3 million population of Gaza, bombed Iraq, Yemen, Lebanon, Syria and Iran. According to **International Crisis Groups**, the targetted nations such as Syria, Gaza, Iran, Yemen and Lebanon have been calling the world to stop Israeli actions. Sadly, there is no power to stop Israeli actions. Thus, the Israeli actions are becoming threat to the ~~existence~~ **existing** ~~the~~ world order.

Besides, there is enormous division among muslim leaderships on the actions of Israel. The division among muslim leaders has not only ~~weaken~~ the Ummah's response to Israeli actions but also buried the determination of Palestinians freedom under the sand of middle east. **J. Johan Meuherscheimer** also ascribed in his book "Israeli lobby and US Foreign Policy" that muslim leadership has always given gap to Israeli war crimes against ~~Palestinians~~. Therefore, division among muslim leadership has ~~harmd~~ harmed strong response to Israeli actions.

National interests of muslim states are another factor responsible for the weakest response to Israeli actions. Muslim states push national interests of their states rather than muslim Ummah's stance. Muslim states have own foreign policies different from others. **Rob** urged in his one of the

most tremendous books "War 2024" that the kings of Arabs have already cleared their stance on the future of Gaza and the region. According to Rob the kings have no problem with the actions of Israel but kings have consideration about the economies of their states in the future. Thus, national interests of muslim states have vanished the stance of Ummah to Israeli aggression.

Additionally, the major power powers influence on Islamic states is another reason for the ostrich mentality in Ummah's response to Israel's actions. The United States along with China and Russia have influenced the middle Eastern nations. Arab nations such as KSA, Jordan, Egypt, Qatar and the UAE have been influenced by the U.S economically, militarily and politically. The United States which is one of the supporters of Israel has always influenced the foreign policies of muslim nations. Thus, muslim nations everywhere have no capabilities to take strong actions against the genocide of Israel in Gaza.

Similarly, Arab nations alliances with Israel is one of the factors for rotten actions of Ummah against Israeli actions. Arab nations such as the UAE, Bahrain and Morocco have already signed the Abraham Accord 2020. The pact has made the Arab nation independent on Israel and the U.S economically, militarily and politically. Consequently, the stance of Arab nations who signed the accord does not support the Ummah's

response to Israeli actions. Therefore, alliances with Israel is one of the factors for weaker stance of Ummah against Israeli war crimes.

Furthermore, the economic interests of Muslim states are another hurdle on the way to stop Israeli actions. Arab nations have enormous economic ties with the state of Israel. The Report of International Crisis Group on the Economic Partnership of Israel-UAE explored the interdependence of the two nations. The Arab nations do not want to harm the growing of tourism, investment and relations with the state of Israel. Thus, the economic interests of Muslim states has weakened the Ummah's stance on the Israeli actions.

Incompetent Muslim leadership is another factor responsible for the ostrich mentality in Ummah's response to Israeli actions. The current leaderships of Muslim countries have been facing criticisms from own public. Edwin Said who is one of the authors of "A Question of Palestine" also criticised the leadership of Muslim states. According to Edwin Said that the current kings of KSA, Jordan, the UAE and Qatar were the agent of former Britain Empire. Thus, the current incompetent leadership is responsible for the weakest stance of Ummah against Israel.

Contrarily, the Israeli horrible actions against the existence of humanity can

be reduced through embargo on the supplies of weapons. The international community has already stood against the arm supplies to Israel. Now, the International Court of Justice (ICJ) and international Criminal Court (ICC) must consider the supply of arms to Israel as an act of war crime against humanity. This will further influence not only the stance of international community but also Ummah's against the actions of Israel. Thus, the war crime against humanity can be eliminated.

Similarly, abolishment of veto power is the solution to the cruel actions of Israel. The United Nations has influenced by the veto powers. The veto power has been used for national interests rather than humanity. J. John Mearsheemer ascribed in his book *Israeli lobby and U.S Foreign policy* that the United States has used 70 vetos on the issue of Palestine. This has given diplomatic cover to the war crime of Israel against humanity. The veto power must be abolished so as to hold Israel accountable for its actions. Truly, Erdogan said, "World is bigger than five". Thus, the abolishment of veto power is important to end the war crime of Israel.

Additionally, the united stance of muslim leadership is needful to eliminate the actions of Israel. Muslim nations must reform the OIC. There must be an

independent ~~security~~ peace keeping force for the Muslim countries security under the charter of OIC. This will enable the muslim leaderships to have united stance on issues like Palestine and Kashmir. Thus, the actions of Israel will be eliminated.

The Arab nations of Middle East must threaten those nations who do not stop arms supplies. The Arab nations can reduce the war crime of Israel without harming their relation with the state of Israel. The GCC must impose oil embargo against those who do not stop the arms supplies to Israel. Thus, the oil embargo will not only end the Israeli actions but also establish peace in the region.

Two state solution is a key to solve the unrest in the region. The international community must reform the UNSC which has been rejecting the creation of Palestinian state. Two state solution will not only establish peace but also end the chaos in the middle East. Thus, the UNGA's resolution 2024 must be achieved in order to end the Israeli actions.

Additionally, the role of UNO is needed to implement every resolution strictly. The UNO must not ignore the implementation of resolution. The UNO

must be supported so as to achieve its objective. In short, the role of UNO can change the reality in the Israeli actions on the ground.

The abolishment of Israeli membership in the UNO is another solution to the war crime. The international community must abolish the Israeli membership in UNO. This will bring diplomatic oppression to end the horrible actions against humanity. Thus, the Israeli actions can be eliminated.

In nutshell, the Muslim ummah has been trying to achieve the elimination of Israeli actions. Sadly, there are numerous hurdles to achieve the objectives. This makes the ostrich mentality in the Ummah's response to the actions of Israel. The Muslim nations around the globe are chained with the influence of giant powers, economic interests and alliances. Consequently, these all make the stance of the Muslims weak on the actions of Israel. This high time the chain of influence must be broken for the sake of peace in the region. Thus, the role of Muslim nations along with international community is important to eliminate the war crime of Israel.
