8- Conclusion

Essay

Prosperity is the wellness of a state, especially in the domain of economy. Economy plays an important role in the prosperity of a state, for it can replace other powers. Nations in the world which are having different resources of economy are ahead in prosperity. Despite being blessed with bulge of youth population, strategic geographical location and plenty of natural resources, Pakistan is lagging behind in prosperity. Utilizing Pakistan's resources by improving the quality of education, curbing corruption, enhancing economy and the correlated areas, Pakistan can soon see the dawn of Prosperity. Currently Pakistan is facing less Foreign Direct Investment (FDI), stagnant remittances, heavy and large corruption. Besides quality education is another issue along with the political instability in Pakistan. Parallel to

-the pathetic situation, challenges like rivals in the neighbours of Pakistan, mismanagement of the available resources, & rise in terrorism and lack of infrastructure ~~make~~ the situation even worse. However, providing quality education, improving economic conditions, promoting tourist sites and showcasing a soft image of Pakistan can help in improving Pakistan's prosperity.
