

Hamas has started its attack on Israel in October, 2023. What are the implications of this war worldwide?

Hamas Attack:

On October 7, 2023, Hamas has launched an attack on Israel. The attack can be broadly divided into two categories. Hamas has launched air strikes by its rockets and short-range missiles. Also, 2000 Hamas fighters crossed the Israel's border. 200 paratroopers also entered into Israel. These fighters attacked the military checkpoints and bases. These fighters also attacked the 'Tent City' and against 230 hostages to Gaza.

PALESTINIAN GENOCIDE:

As a result of Hamas attack on Israel, Israel has launched operations in Gaza. Hamas has killed 2200-4400 Israelis and 1.6m Palestinians. 9000 injured and 1.6m displaced from North to South of Gaza. 90% of buildings were destroyed or partially damaged. Israel has done it by attacking with bombs, tanks, missiles.

EXPANSION OF WAR:

Hamas has sent tunnels of around 250-500 km in Gaza, Israel

has launched its ground attack in
Gaza but are reluctant to go into
the tunnels because of major surprises
set by Hamas. The major example of
this is the Vietnamese tunnel war fought
between the Vietnamese guerrillas and
the US army. US army was defeated
because of major attacks / surprises
by the Vietnamese guerrillas. Snakes,
bats, vermin, are waiting for them.

OPERATIONS WORDMIDE:

1. IRAN UNDER ATTACK:

Hamas, Hezbollah and Hezbollah are
the proxies of Iran. Iran has supported
all the three proxies with artillery
short range missiles. All the three proxies
are active against Israel. If US & Is-
rael attacked the Iran then there
is greater than chance of retaliation
of Iran. And ultimately the war
will expand.

2. BLOCKING STRAITS IN RED SEA:

Hezbollah are attacking the
US warships in the Red Sea. As
a result Israel and US has de-
ployed a large naval fleet in the
Red Sea particularly concentrated
in the Strait of Hormuz. Also

where more than 88% of trade occurs. Also of the war expands to the Iran then there is greater possibility that Iran will block the Strait of Hormuz because of its military presence there.

3. HAITI AND ARAB-ISRAELI TALKS

As a result of Hamas-Israeli attack there is a greater chance of halting the negotiations with the Hamas. The Arab countries named UAE, Bahrain, Oman, Morocco has started downgrading their relations with Israel. Saudi Arabia has also halted its negotiations with the Israel.

4. CHINA AND GLOBAL POLITICS:

US has reiterated its support to Israel. US has provided Israel with warships, naval fleet and ships. Every single ship dropped in Gaza is provided with by US. As a result of this attack many Arab countries has started downgrading its relations. Egyptians, Palestinian presidents has refused to talk. Netanyahu prepared to talk. Salman put the Arab League Blinken to work for 2 hours.

5. RUSSIA AND CHINA soft power

- China and Russia retreated to solve this conflict on two state solution formula - at the same time both countries refused to clear the atomos a terrorist organization. This shows their soft corner with the Muslim world.

8. BENEFIT TO RUSSIA:

Hamas attack on Israel has sure-fitted to Russia. US a major enemy of Britain & Ukraine - Russia may have started directing its stance. US has deployed major part of its army to fight against Hamas. As a result the US Congress did not approve a support package for Ukraine. Benefiting Russia to advance more in Ukraine.

9. NEW WAR FRONT

US has not enough militarily capable to open a new war front against China. The military and financial support to US is largely consumed in Ukraine and Israel. So it is not military and economically feasible for US to open a new war front.
