PRECIS CSS 2013:

Culture has two aspects named: external, ~~formal~~ and ~~inner~~ ^{internal} ideological aspect. They have a link with each other, when one changes the other also changes. Both these types of culture are components of a given social structure. Cultural problems, therefore, cannot be studied in isolation from social problems. The

Indent the paragraph.

No need to reproduce the list, just give its gist

cultural problems of underdeveloped countries should be solved in the context of social problems. Some of these problems originate from long years of Imperialist-Colonialist domination. Freezing up of social and cultural development when European Imperialism caught up Asia, Africa and Latin America. Colonialist-

Imperialist domination increased the separation

TITLE: culture defines social structure

Title should preferably be a phrase, not a sentence.

PRECIS CSS 2012:

Population growth is becoming a menace for the society. Qualitative ^{measures} and quantitative measures should be adopted by the state to control over population. Over population ~~exp.~~

Grates the talent of the researchers and people capable of scientific discovery. It also keeps a check on the natural resources of a country. No one ^{pays} heed to this problem. Politicians think they will gain more votes, Businessmen consider surplus of labour, revolutionists think every child as an insurgent. Experience has shown that aspiration not ^{desperation} desperation makes revolutions. Hence, it is the state which has to take the responsibility to fight overpopulation.

TITLE: State's role in combatting over population - a menace for society.

Idea is ok.
