

## Paragraph on "Elections in Pakistan" and PTI

Elections in Pakistan are alleged to be full of rigging. All the democratic norms have been breached in the latest election. The public is showing discontent in the electoral process which is lamented. The state organizations are indulged in stealing the mandate of general public. Chief justice of Pakistan is hectic in tribunals. Imran Khan is

incarcerated along with his alliance. He is clinched to his previous stance and it seems that the establishment cannot derail him.

However, his lawyers have filed a petition against the conviction of Imran Khan. The court has some clandestine decision of

applying sanctions on his party. From all means, the results of elections seem to be factitious. The urge to organize transparent elections in every constituency is not fulfilled.

no sense of this passage there is no coherence and no sense of the content basic are not satisfactory need improvement

Note: I learn some new vocab, so i try to write it. kindly asses for grammar mistakes and sentence structure etc.
