	GLOBALIZATION AND NATIONAL
the representation of the representation of the second	ECONOMIES
	Ourline:
٤. ٤	Introduction
	Thesis Statement:
	Allhough globalization has, among others.
enl	arged global economic pie and created intricate
inte	idependencies among nations the process is not
with	out its pitealls for the very fact that a few powerfu
econ	nomies are at the helm of it. severtheless, this
econo	remedied, for good.
be	remedied, for good.
<b>2</b> •	Globalization and national economies have
	mutually impactes each other - and some sta
	have more to be more equal than other.
3.	Globalization of the international arena has
	been fourtful for the world economy.
	A. Win - win en largement of the world economy
	B. Enhanced interconnectivity and interdependence
	amonglisem stalls
1-1-1	c. Cheaper and competitive pricing of commo
	ditres through outsomering of manufacturing the
	D. Better prospects for more open and prector
	for more years and put to
	E. Blessing of semitten cas for national as
	E. Blessing of remitten ces for national economic
	E. Blessing of remillences for nutional economy

4.	However, globalizing mocess has been
The second second second	imperilled from its outset on account of
- Majorina	being dictated by proceed minuting of
