

Misbah Habib

A ship is safe in harbour, but this is not what ships are built for.

Outline

1) Introduction

Staying in one's comfort zone withers one's growth, development and potentials. Nevertheless, facing hardship makes one more resilient and powerful.

2) How does staying in one's comfort zone limit potential and growth?

3) Factors compell to stay in comfort zone

a) Fear of failure

Case point: Neville Longbottom, Harry Potter and Sorcerer's Stone by J.K. Rowling

Reluctance

b) Reluctant to change

Case point: Disappearance of Nokia in Market

c) Fear of social acceptance

Case point: Nora, The Doll House, Henrik Ibsen

1) Advocate justice and human rights

case point: Prophet PBUH, Character of Madina

5) Motivation to face challenges

- a) For attainment ^{of} specific goals
- b) Social and personal growth and development

7 Conclusion

"There is no such thing as a free lunch." (Milton Friedman renowned economist). In similar way staying in one's comfort zone seems appealing but it limits ~~one's~~ potentials and growth. It is related to the ship which is built to sail against turbulent weather, and to attain its purpose. Correspondingly, humans need to venture beyond the comfort zone to unleash their potentials. However, sometimes humans chose to stay in comfort zone due to fear of failure, reluctant to change and fear of social acceptance,

Hence, it hinders human growth. In opposition to this idea by facing trials and tribulations, humans become more resilient. It helps them to improve social and economic status, and they become more prone to adapting changes. In addition to this it helps nations to counter diverse challenges and address the flaws in underlying conventional truths. Moreover, it contributes in expanding states geographically and broaden the perspective regarding world view. In similar way, it promotes empathy and, tolerance and advocates the justice and rule of law. However, staying in one's comfort zone wither the one's growth and development. Nevertheless, facing hardships make one more resilient and powerful.

Artificial Intelligence Saviour of human race

Outline ✓

1) Introduction

Humans are susceptible to myriad of social, economic and environmental hazards. Nevertheless, artificial intelligence harnessed as potential saviour of human race.

2) Why does artificial intelligence saviour of human race?

3) Threats lingering over mankind

- a) Food Insecurity (783 million food security)
- b) Unprecedented Natural Disasters
- c) Economic Upheaval
- d) Burgeoning Population
- e) Escalation in war threats

Irrelevant details

4) Artificial Intelligence Harnessed as Potential Saviour of human Race

- potential of
- a) Augmenting Agriculture Sector
 - b) Early disaster warning mechanisms
- providing potential

c) Aids in demographic analysis for resource allocation ✓

d) Boost the efficiency of medical field ✓

e) Helps in devising effective policies ✓

f) Strengthen Economy through mass production ✓

g) Elevate Research and Development ✓

h) Improve weapons for deterrence ✓

5) Threats imposed by Artificial Intelligence.

a) Breach of Privacy ✓

b) security threats and over-reliance ✓

6) Conclusion

Suggest measures to overcome the threats

←—————→

The Genie is out. Now we ^{need to} move forward on artificial intelligence development but we also need to be mindful of ^{its} real danger.

(Stephen Hawking) ✓ In similar way, Artificial Intelligence has come to rescue human race but not without repercussions. ✓ The looming threats over mankind include food insecurity, unprecedented natural disasters, economic upheaval, burgeoning population and escalation in war threats. ✓ Nevertheless, Artificial Intelligence

harnessed as the potential saviour of mankind by augmenting the potential of agriculture sector and by providing early disaster mechanisms. Additionally, it aids in demographic analysis for resource allocation and it boost the efficiency of medical field by assisting in formulating the effective policies at macro-level. Moreover, it helps in strengthening the economy through mass production and elevates the research and development. Furthermore, it contributes in deterrence by improving the weapons. However, there are some ^{risks} ~~consequences~~ associated with artificial intelligence like breach of privacy, security threats and overreliance on technology. Nevertheless, humans are susceptible to ~~myriad~~ social, economic and environmental hazards. However, artificial intelligence harnessed as potential saviour of human race.

morality is for those who can afford it

Outline

1) Introduction

morality is high quality trait.

It is affordable by those who have self-awareness, empathy, compassion, sheer determination and cultural values.

2) How morality is linked with affordability

3) Morality is linked with inherent personality traits

d) Morality give courage to stand against environmental injustice. ✓

(Case point: Greta Thunberg) ✓

6) Factors that ensures morality

a) Awareness regarding fundamental rights ✓

b) Education equips the individual with moral principles ✓

7) Conclusion

كَلَّا بَلْ نَسَبْنَا عَلَى قُلُوبِهِمْ مَانِعًا لِيُذْهِبُوا
(83:14)

Indeed! their hearts became
ruled with their evil deeds. (Surah
Mufaffifin: 83:14). Similarly, it highlights
that it becomes a struggle to
discern between right or wrong when
hearts are corrupted. In similar way
when individuals lack conviction
and have weak personal traits they
are susceptible to immoral practices.
Nonetheless, morality is intricately
linked with personal traits. ^{In} Addition
to this strong personality, intelligence
and compassion resist the immoral practices
in society. Moreover, learning, and diverse
perspectives foster morality. Similarly,
human nature and society define the
parameter for moral values. In contrast
~~to this~~ weak characters ^{exhibit} failure to transcend
the financial constraints and unchecked
narcissism leading to compromise of moral principles.
However, many prominent figures with their

moral compasses marched against all inequalities within the social setup. They created a huge impact on world. In order to promote morality, it is imperative to advocate fundamental rights and ensure ~~the~~ access to education. However, morality is the high quality trait. It is affordable by those who have self-awareness, compassion, sheer determination and cultural values.

Avoid minor grammar mistakes
Be careful about choice of words
