6- Conclusion

Growing population explosion of the country

There are several causes behind prices hike in Pakistan, among them growing population explosion of the country is top-listed. Undoubtedly, Pakistan's population is growing at rapid pace day by day. As a consequence, Pakistan ranks among the most populated countries in the world.

According to the report by the United Nations in 2023, "Pakistan's population is approximately 2.99% of the world population" (The United Nations, 2023). This example serves as a clear demonstration that growing population is a main cause behind prices hike in Pakistan.
