of state also benefits the nation in some way. If man fulfils his responsibilities as nation and merit system is followed then all these things proves that man is loyal to nation as well as to state.

But there is another thought that loyalty to nation is different as compare with loyalty to state. If working for welfare and interest of state as well as citizen fulfils their responsibility shows that a man is loyal to state not nation.

But on other hand, working honestly merit based system and for rights of citizen shows that man is loyal to nation not state. But we say that a man loyal to nation is also loyal to state and vice versa. It cannot be done - that if man is working for nation will not flourish the state. It will flourish the state by its proper development.

not loyal to the nation. This impact the nation badly as well. people ~~things~~ thinks that it is not same. That if person is loyal to state is not necessary that he is loyal to nation and vice versa. So, working for interest of state and on merit base system shows loyalty to nation and state.
