Title: Friendly Teaching Is More Beneficial.

Precis: Modern educational theorists are more in favour of friendliness

? teaching than friendly teaching.

If one has liking for children, they will obey him.

If a teacher <sup>has</sup> interest without any desire, children will be grateful.

Teacher with this quality <sup>does not</sup> need to interfere with children's freedom, but are

obeyed when they do so. It is not possible for teachers

to keep them away from liking children. Moreover, education must

? be given by people who usually remain away from children rather

than professional teachers. However, tutors cannot neglect strict discipline, for young society is fatiguing.

Although this necessary behaviour cannot be preserved by self-control

only, <sup>yet</sup> ~~but~~ no rules can substitute for love and affection. If children

feel one like them, they respond to every suggestion happily.
