## Education: a way of development

rewrite this sentence

In the context of education, there are three schools of thoughts. First, children should be completely free whether they are bad. Secondly, children should be completely accountable ~~and~~ ~~not~~ whether they are good and third, children should be free. The last school of thought is too important than two others. Some people say education's role should be for environmental development but the author ~~do~~ disagrees. It is the role of education that people live together. The cooperation among the societies would <sup>b-e</sup> impossible without education. Education should be more than the chance ~~at~~ for growth. It must provide mental and moral equipment which is not possible without education.
