Climate Awareness: more important than climate action.

Introduction

Thesis Statement:

The climate awareness is crucial as it plays role to act right way with focusing on the issue. And to empower people with the extra costs caused by these changes. Thus, ~~an~~ effective strategies are needed to highlighted climate awareness to mitigate the risks of climate change.

Introduction:-

There is one issue that will define the contours of this century, more dramatically than any other, and that is the awareness of climate change (Barack Obama). The importance of climate awareness is to empower people with the impacts and costs caused by the changing climate pattern. Foremost, the climate awareness highlights the impacts of climate change as evident in the rising of temperature and glaciers melting, which result extreme weather events and natural disasters. The increase in floods not only cause human costs and agriculture costs, but also weaken the economy of the state and heighten poverty. Most importantly,

the repressions create more space for violent non-state actors. Furthermore, climate awareness plays crucial role to act right way and leads to climate actions, an economic aids are needed by developed nations <sup>that helps</sup> to make use of renewable energy and to make use of genetic engineering crops. It also necessitates to implement climate change agreements and ~~req~~ to promote reforestation campaign. Thus, to heightened the importance of climate awareness, a collaborative efforts are needed ~~by~~ <sup>to promote</sup> ~~promoting~~ climate awareness that not only through social media, that not only helps educating in early ages, but also aware local communities about climate change. It also necessitates to ~~enforce~~ laws, to mitigate the risk of climate change through climate awareness.

2)\* Why climate awareness is more important than climate action?

The burning of fossil fuels and release of industrial toxics in the air contribute to the emission of green house gases, leading to changing climate pattern. The climate awareness is to empower people with the costs caused by these changes. Climate awareness is

crucial as it  
with focus  
effective  
heightened  
the impact
