Precis & composition (2018)

Climate impact on Human

In Northern Europe, the cold weather brings positive effects. cold climate depletes the human energies and creates hurdles for physical activities, but struggle against hurdles make a positive impact on human. They build strong house and arrange warm clothes to keep themselves warm. To protect themselves from bitter cold ^{wind} weather, ~~and they arrange fire, warm clothes and food and vegetable to survive in cold weather~~ one sentence about survival is enough

Human nature changes in different seasons. In summer, they feel more relaxed as compare to cold weather; ~~in~~ cold, they perform more physical and mental efforts to sustain life.
