In order to know about hidden flaw, it is essential for us to know what our enemy say about us. Usually our friends praise us to flatter us. Firstly, they do not consider our fault as a fault or they do not hurt us. In contrast, our enemy tell us about every flaw and make a mountain from a mole hill but there are some reality in this. Therefore, we should be thankful to our enemy who help us to know about these flaws. In this scenario, we see our enemy is better than friend.
