Precis

(Title) War: An Enemy of Civilization

¶, One can look back and see the history when the great destruction to the civilization was caused by war. It unanimously caused severe destruction to society economically. Many monuments lives were looted. Moreover, when society was engulfed into this ^{over} ~~over~~ it became difficult for them to come out of it. Previous war strategy was not more lethal than the modern warfare techniques as nuclear weapons will cause severe damages to the entire world. Therefore, Government shall negotiate to other states and spread peace around ~~the~~ society.
