

M T W T F S

English Precis and Composition 2016

Translation:

"Many people believe that the laws of the land and individual freedom are mutually exclusive. At first glance, this notion does not seem incorrect. Every law imposes some kind of restriction on citizens. If a country has numerous laws, the overall restrictions increase with more restrictions, individual freedom gets stifled under their weight. Conversely, if the number of laws is fewer, the scope of citizens' freedom expands."
