5. Conclusion

Introduction

The uncertainty of securing a ~~rewarding~~ rewarding career prompts a sense of frustration and disappointment among the youth in the third world countries. This is because they have invested a fortune into attaining quality education and have devoted years, working tirelessly in pursuit of a promising job. Most urban middle-class families in developing countries idolize the life overseas. Leaving the home country in search of a better quality of life is not a new phenomenon. With increasing globalization in the contemporary era, the mobility of human capital has accelerated. Pakistan is in the same predicament. The main causes of brain drain ^{from} Pakistan are increasing unemployment, growing job dissatisfaction, limited career opportunities for women, corruption and poor standards of living in the country. As a result, there is shortage of skilled workforce, loss of potential future entrepreneurs and loss of revenue for Pakistan.
