Precis

Title: Cyclical pattern and Societal development

Shaikh Rashid expressed his views on cyclical nature and development in his interview. He suggested various tips for the future by expressing several examples of historical circumstances. He said that those transitions were due to modernization and societal development. Moreover, he told that these changes were connected between adversity and prosperity. He compared these changes with ease and hardship. He noted that ^{hardship} moved prosperity and ease moved adversity. ^{Firstly} he gave example of strong men who faced challenges then they worked for ease and prosperity. ^{Secondly}, he pointed to weak men who enjoyed easy times and they did

not work for their future. In which result, they faced ~~the~~ challenges and moved towards adversity. Furthermore, he advised to create a sense of responsibility in future generations. He defined ~~that~~ that warriors were those who can face challenges. While parasites relied on others without any contribution. Finally, Shaikh's interview highlighted various key aspects of progress and societal development. He suggested that society can move from adversity to prosperity by adopting this approach.
