- Poor Judiciary
- Poverty
- Illiteracy

## 2.1.7 Political Instability

~~assumption~~

- Weak administration
- Allegations on Oppositions
- Lack of unity.

## 2.2 Consequences

### 2.2.1 Loss of revenue in Brain Drain Area.

- reduced tax collection
- Increased inflation

### 2.2.2 Dearth of human Capital in Brain Drain

- health Care Professionals
- Teaching Professionals
- Business Workers
- Labourer.

### 2.2.3 Over Crowding in Brain Gain Areas

- Scarcity of resources
- Saturation
- Inflation.

Introduction

Elizabeth Gould David says, "The most wasteful 'brain drain' in America Today is the drain in kitchen sink". Brain drain is neither a new issue nor its a fully settled one. Developed countries are dealing with it successfully. Whereas, developing and under developed nations are still struggling. Unfortunately, Pakistan is one of them. The main causes behind Brain drain are unemployment, education sector problems, poor quality of life, inflation, healthcare sector problems, raised crimes, and political instability. These reasons are not new in nature but their intensity and consequences like loss of revenue & dearth of human capital, are far greater in a country like Pakistan.
