

Paragraph.

Classrooms decide the future of ~~an~~ student. The environment of class plays crucial role in deciding the future of an student by building his character.

Firstly, a pleasant environment of the class assists him in understanding and respecting others opinion, consequently, he becomes gentleman. Secondly, students perform their duties and all have equal rights, this makes them responsible and they believe in equality of for all.

Further more, since he collaborates and cooperates with other students through team work, he knows the importance and significance of integration and coordination.

Finally, a friendly environment of class helps in healthy critical debates bt between students as a result it enhances the critical thinking and technical

approach of him to resolve a
problem or debate. Precisely,
the environment of a classroom
decides and makes the future
of an student.
