◦ Conclusion :

Miracles.

Introductory Paragraph:-

According to Bureau of Emigration and Overseas Employment (BEOE), About 262,625 people have emigrated from Pakistan that is About 3.6% rise from the previous year. People leave country in search of better opportunities and job opportunities. It is a well known phenomenon, but developing countries like Pakistan is facing huge crisis due to this and being unable to solve this problem the major causes of brain drain is political instability, no policies on development and lack of acknowledgment and better facilities in Pakistan, and this will eventually cause major ~~shortfall~~ shortfall of experienced people and a pitfall in economy of country. This will also hinder the overall progress of country and would impose huge psychological effects on youth. Higher authorities should pay heed to this issues and propose some reforms in its policies to curb this problem.
