girls tells in interview about the

harassment or misbehavior of coaches in
ground (Aurat Foundation)

Do women have equal
right as men in Pakistan

عورت کو بھی سیکھنے کی سہولت دینا
عورت کے لیے دور میں قوی اور سنبھالا
(علامہ اقبال)

ce Women becomes maryams, Eva
and sometime Zahra .

women andore the nation
in every era .

in the world war II,
it was assumed that Germany
won the war. Due to its mighty
army and ~~advanced technology~~
strength. Despite this zeal and
Zest, Germany lost the war.
The evidence was fall that
when the Germany restricted
the women work from outside
on the sometimes Queen
Elizabeth II contribute her work
in automobile company to
utilize her human potential. The

975
result was clear Germany lost and Great British won. It shows that nation without women does not make progress.

Even in the divine side all are equal. But the patriarchal mindset of societies does not give equal rights to women.

This inequality makes our green world into bloody. As compared to other countries situation

of women is better ^{in Pakistan} but they also face inequality in many areas. She does not have equal right of education, health, employment, politics. Which makes situation worse in societies. Women face inequality from day one to till death.

The Eva born from the rib of adam. not from his head to top him, never from his feet to tempt out for him. From the side of adam

to equal him, All are equal from the side of God. God makes all human equal. But it is a biological different which makes the women inferior in society due to patriarchal mind set of people. Women ^{had made} struggle in every era to get their right. For instance Jahnsi Ki Sami and Razia Sultans are historical name. They fought in battle field for ^{their} get rights. In the advent of Islam women treated like slaves. For instance when girl was born his father feel embarrassed to face people. Girls are buried alive. But Hazrat Muhammad shows the importance of women by saying that Daughter is a blessing of God. He also asked, Haven Juy under the feet of mother. But society treated him like a slave. ~~Some~~ Some are burnt alive with the demise of her husband.

she considered a root cause of all evil. Women represent the half of the population. But they do not have equal rights.

in Pakistan condition of women is better than other countries of South Asia. Despite this, women faces many difficulties in society due to patriarchal mindset, cultural norms. They face domestic violence, abuse, limited access of education, health problem, political issue. Now Pakistan has taken initiatives to protect women and provides equal rights as man. State bank of start women leadership programme in 2023. which provides 10 million unique accounts for women. It also increase 20% financial ratio sector. Pakistan Constitution also pass law against violence. The act is pass to stop violence against women.

First come with education, women facing difficulties in the provision of education due to poverty. Pakistan rank 145 out of 146 just above Afghanistan from women education. Parents do not afford expansion education due to poverty. They prefer their son to send school because they would help in future and they involve girls in domestic chores. Moreover, patriarchal mindset also affects women to get education. For instance, they thought girls are ^{has} gone after marriage. They not invest their money on girls and boys are support them in future so they send their sons for get higher education. Secondly cultural norms also hurdle for women. The area of widespread battle are cause security concerning for women. They face verbal language harassment on the way to going school or after coming home. For instance, the continuous attack on

girls school in KPK in may 2024
show serious security threats
for women. Next come with lack
of school, in rural area there
is no school for women. if any
present they have no facilities
in long distance parents are agree
to send their daughters due to
safety. For instance. women in
age 15 to 45 face harassment
at least once in life according
to aurat foundation. women face
harassment on the way of going
school on bus stops. in addition
to lack of female staff in
schools which makes girls
uncomfortable. For instance the
ratio of female teachers is
42% and male 57% in urban area
it is reduced in rural area 32%
according to ministry of federal
education.

Secondly, health facilities
of women in Pakistan is not
good. due to poverty cultural norms

and lack of awareness. First come with maternal mortality is the leading cause of death in Pakistan. Due to complication remain mismanaged in home delivery of birth. According to UN world population report 2019 women 176 out of 100000 die maternal giving birth secondly, unawareness of health in rural women. They are unable to say their problem with other. which make situation complicated. According to Shokiat Khanum report 2023 every year 83000 cases of cancer are reported in which 40000 women die due to negligence. Thirdly biggest problem that are faces by women are provision of transport. Health center are at distance. They are not allow to go alone. due to harassment case, For instance, about 50% cases harassment report in bus stop (Aurat Foundation) which prevent women to go alone outside. Next come with lack of

medical facilities in health care centers
limited beds, lack of staff in
maternity centers causes suffering
for women. For instance, delivery
of babies in Rickshaws shows the
health^{Facility} condition in Pakistan.
Moreover, lack of family planning
due to lack of awareness is
considered use of birth control pills
illegal in Islam which affects women
health. 85% women are anemic
in South Asia, in which 50% are
Pakistani women. According to
World Anemia Survey Report 2019,
most of the women are anemic
in pregnancy, lack of nutrients
and medical facilities. In addition
to, families want more baby
boys which cause the reason of
forced abortion. They feel rejoiced
with boy birth and mourned
during abortion. Inadequate equipment
are used which affects women
health badly. For instance, HIV
World Survey Report 1999

patient live in countries in which 37% are women. Next come to ~~easy~~ marriages are another hurdles on women empowerment. They also cause depression and health concern. Dr Shazia Yousuf Sheikh Zahid hospital tells about girls age 15-35 are effect with hepatitis during pregnancy they are not aware from it. Another report of scholar shows that after (GUC-19) about 45% girls are at the danger of child marriages which leads serious consequences.

Next come with low representation of women in media firstly cultural norms are not allow women to work in media. According to world survey on journalism women journalist are only 35%. Over the world according to IWMF report because society patriarchal mindset. The are

women work in media and come home late night are not considered good. Moreover, women are in media as product of enjoyment which makes situation more worst. For instance News picture of Ayecha wants is released on media. News come with male dominance in media. All the shows are mostly cover by men. According IMWF only 35% of world journalism is represented by women. All the decisive shows (talk) are handle by men instead of decisive comedy shows given to women (morning shows) - Moreover in TV dramas or movies men always doing leading role as compared to movie. For Example in Novel or stories always ~~given~~ shows men ~~as~~ superior personality while women are inferior. It's also the reason of inequality of women in society.

Next women low representation in sports. it is also biggest decline of society. Games are good for women mental health but due to societal restriction they are not taken in part. For instance dancing playing sports in ground instead of supporting girls. People comment on their dress or figure. Moreover, their wages are too low that stops the women participate in game for example. The champion of FIFA world cup man income is \$35 dollar while girl is 2 dollar. which is 33% less than man. This difference show clearly discrimination between man or women. In addition to female faces bullying on ground. According to famous female player Kelly about the misbehaviors of coach or even lower staff during

Training, comments on their
body physique
