Nizar Hassan and his Masterpiece

Nizar Hassan, an anthropologist and a filmmaker, who was born and raised in his family in Mashhad. He gave awareness to Palestinians about their

campaign against Israel. Israelis have occupied another's land and wanted to annex it. The

narrator says, I got an email in which Nizar Hassan wrote to me about his new film "My Grandfather's Path". In that tells if you didn't react and speak for your right, you will become like your enemies.

The art industry and Palestinians' aspects have saved him from

that trap. This film is long but a masterpiece which shows encroachment of rights of Palestinian by Israel. Al-Jazeera has also broadcasted it in three short parts in Arabic, but it needs to be seen as a whole.
