Conclusion:

End Thought:

The concept of brain drain is a matter of serious concern for many nations because it takes off individuals from their homeland to foreign land. It is the migration of country's intellect that may have otherwise served their motherland and contributes to its prosperity. Brain drain ^{term} is ~~not only the problem~~ firstly used by United Kingdom in 1960 when skilled workforce started migrating from developing countries to developed countries. Brain drain is not the problem of this era only. Even in Medieval times the conquerors attacked the nation for gold and other wealth and took people of talent and knowledge with them. Pakistan has been suffering from this problem since long. According to the document available with Tribune Express 765000 left Pakistan

In 2022, nearly triple in 2021.
The main reasons for Pakistan's brain drain process are the progressive nations like USA, USSR, Germany. They had made their countries more attractive for foreigners through significant advancements like scientific research laboratories, more advanced features in business and other administrations. Pakistan drain is one of the major challenges that Pakistan faces today and that actively hinders the development and progress of Pakistan as it deprives Pakistan of its best and most brilliant minds, skilled and trained professionals as they choose to abandon their home and country. However, Pakistan by paying heed towards substantial development and growth can address this problem.

Date: My job on an Apple plant

Reason 1 - Working on an apple plant was physically hard.

(a) loaded cartons onto skids for ten hours a night

(b) Non stop coming down of cartons containing twenty five pounds of apple juice bottles.
