C. Way Forward to Curb Terrorism

1. Political stability
2. Economic stability
3. Reduce the disparity in exFATA and PATA
4. Negotiation
5. Parallel economy in ex FATA and PATA.

D. Conclusion

Terrorism got its strong root aftermath of 9/11 event, which directly effected many regions states in the region. Specially, Middle East, South Asia, Africa and now Europe. Pakistan is one of these effectees. Pakistan had launched series of military operation against extremism. First operation Al Mizam was launched in (2002-2006) and the last one was "Zarb-e-Azb" in 2014. Recently, Pakistan government apex committee announced operation "Azam-e-Istehkam". But, disintegration is shown against this operation by some major political parties and people of ex-ATA and PATA. These are of the opinion that in past government launched many military operation, which didnot give fruitful result.

Moreover, they claim that howlong government of Pakistan will do military operation. This is not the real solution. Additionally, Colombia in 2016 start its peace deal with revolutionary rebel group. Colombian government fought 50 years of war and atleast government realize war is not the solution.

To conclude, It is crystal clear that to bring peace and disintegration in the country government should also consider other options.
