

**Passage.**

Along with the new revelations of science and psychology there have also occurred distortions of what is being discovered. -Most of the scientists and psychologists have accepted Darwin's theory of evolution and his observations on "survival of the fittest" as a final word. While enunciating his-postulate on the concept of the fittest, Darwin primarily projected physical forecast the main criterion, and remained unmindful of the culture of mind. The psychologist, on the other hand, in his exclusive involvement with the psyche, has overlooked the potential of man's physical-self and the world outside him. No synthesis has been attempted between the two with the obvious result of the one being sacrificed at the altar of the other. This has given birth to a civilisation which is wholly based on economic considerations, transforming man into a mere "economic being" and limiting, his pleasures and sorrows to sensuous cravings. With the force of his craft and guns, this man of the modern world gave birth to two cannibalistic philosophies, the cunning capitalism and the callous communism. They joined hands to block the evolution of man as a cultural entity, denuding him of the feelings of love, sympathy, and humanness. Technologically, man is immensely powerful; culturally, he is the creature of Stone Age, as lustful as ever, and equally ignorant of his destiny. The two world wars and the resultant attitudes display harrowing distortion of the purposes of life and power. In this agonizing situation the Scientist is harnessing forces of nature, placing them at the feet of his country's leaders, to be used against people in other parts of the world. This state of his servility makes the functions of the scientist appear merely to push humanity to a state of perpetual fear, and lead man to the inevitable destruction as a species with his own inventions and achievements. This irrational situation raises many questions. They concern the role of a scientist, the function of religion, the conduct of politician who is directing the course of history, and the future role of man as a species. There is an obvious mutilation of the purpose of creation, and the relationship between Cosmos, Life, and Man is hidden from eyes; they have not been viewed collectively.

What is 'it' here?

The Purpose of creation of man -  
An unsolved mystery

The discoveries and confusions affiliated  
to it are directly proportional to each other.

Darwin's theory of evolution is misinterpreted  
by scientists. The concept of "survival of  
the fittest" gives different meaning according  
to psychologists. They refer it to the  
mental well-being. Man is being called  
economic-wellbeing creature. A man of  
modern world is either communist or  
capitalist. The perspective of life of a man  
changed after two world wars. He is  
now a creature who is devoid of feelings.  
People belong to different spheres &  
life are responsible for stolen identity  
of a man. The actual purpose of  
creation of man is vague.
