

2016 → Precis

Last May, I wanted to go at some excited and foreign tour during vacation and a trip of Cherokee made me so happy. We reached there by flight and visited a Qualla Boundary town having most beautiful scenery of mountains just like ~~harmaline~~ In summer nights, Qualla Boundary tries to present a part of Cherokee by outdoor historical performance. ~~There~~, we went to shop having variety of things present including traditional war bonnets. George, a fluent English speaker, welcomed us there. Besides trade, Cherokee also has other means of income like Bingo weekend in which various kinds of games attracting large numbers of people that gives them great returns. Final stop was at the museum where various symbols of Cherokee cosmology are presented. Back at home, I finally missed the place and look forward to the next trip.

A bit long. Use of first person is not allowed in precis.
