 - 3.3.3 Reduced GDP

3.4 Social Impact

- 3.4.1 loss of cultural diversity and ethnicity
- 3.4.2 loss of community identity

Suggest remedial measures as well

4- Conclusion

The Essay

In 1980s and 1990s, Singapore had faced a major brain drain in which many of its top talented, professionals migrated to other countries, such as the United States, Australia, and Canada, in search of better career opportunities and living conditions.

The former Prime Minister of Singapore Lee Kaun Yew said, "we are losing our best and brightest to other countries and it's a tragedy." This means brain drain is not a simple matter rather it leaves great impacts on society. Unfortunately, Pakistan is also facing brain drain due to the unemployment, poor working conditions, low wages and lack of good governance. These causes have many consequences like loss of skilled professionals, reduced productivity, economic deficit, and leaving social impacts as well.
