

Embracing of Multilingualism : of A Step Towards an Egalitarian Society

Embracing multilingualism can become an elixir for socioeconomic development. It can not only diversify job market but also preserves cultures. For instance, by ameliorating the learning faculties of students, it prepares them for the market competitiveness, thereby dispelling frustrations of unhealthy competitions. This creates an egalitarian society which encompasses cultural diversity.

dear student there are spelling mistakes and the precis is supposed to be written in simplest expression using difficult vocab is highly not recommended in precis 0/20 read the precis rules again

be careful about basic grammar and sentence structure spelling mistakes in precis are red flags

{ Passage Words : 166 }
{ Precis Words : 52 }
