Title: Importance of Education

There are three schools of thoughts. One is in favour of liberty of children. Other is not in favour of liberty. Third is in favour of freedom but with limits. Some people view education has no positive aim. Writer is not agree with these people. Humanbeings live in communities they need cooperation. It is the result of education and ~~because~~ technicians humanbeings are living on limited area. It is education which provides mental and moral equipment which is impossible for children.
