Envy is a source of unhappiness

Envy is a feature of bad nature on human personality. Because it does not destroy others' life, but also destroys himself. Therefore, he feels jealous to see others' happiness, instead of enjoying their blessings. This nature is lethal for humanity. Envious person does not understand that everyone has exceptional skills in life, which makes them unhappy. However, it is necessary to reduce envy, because it's the only way of happiness. But it is difficult to make them happy, but not impossible. Because he has no control on their thoughts. Thus, it requires time to overcome this situation. To control an envious nature
