M T W T F S

Federal Minister for Finance
Mr. Alrangzabe Presented a
budget in National Assembly
on 12-6-2024. Federal govern-
ment Prepared this budget with
consultation of J.M.F. Governm-
ent did not subsidize but
finished all subsidies and
imposed many taxes on ever-
ything. Actually it is not fau-
lt of government but also
government was bound to imp-
ose many taxes. At this time
total budget was nineteen
trillion dollar but it was also
shortfall which government
will manage itself. No
government wants to annoy
its voters sometimes it
is an obligatory ^{to do}. J.M.F
also pressurised government
to impose taxes otherwise

no episode of money will release for provide to Pakistan. Actually Pakistan has no stable economy its reason is evasion of its citizens from taxes. Government of Pakistan is trying to compel its citizens to be filer. Unfortunately people are reluctant to pay taxes. Seventy five years have gone since Pakistan came into being. People try to evade. why? People of Pakistan are not used to pay taxes because they are not facilitated in education, health, transport etc. If government spends money for its citizens and meet their demand then people are willing to pay taxes. When does money not spend properly

People are reluctant to pay taxes. Spain is a country where transport is free for everyone.

Government and public should be at one page and make a good strategy so that maximum tax can be collected and maximum facilities should be given to public then economy of Pakistan can be flourished.

Political parties should be at one page for the sake of country and make strict rules against corruption and money laundering.

No one can do money laundering and corruption and authorities should try to recover money from corrupt leaders to stabilize

economy of Pakistan.
