Introductory Paragraph:

"Youth are not useless they are used 'less', they are not careless they are cared 'less' - Swami

Chinmayananda. A Brain drain is a term that is used for a phenomenon of migration of intellectual people from least developed countries towards developed countries. In

the year 2023, 0.7 million people have migrated from Pakistan. Along with Global brain drain Pakistan also struggles with such problem. The implications of such phenomenon are disastrous and are

caused by economic reasons, lack of financial and academic reasons, political will in the prevention of brain drain and lack of higher education institutes. Which in return have dire effects on country's

economy, loss of human resources, dearth of talented people and loss of scientists and researchers.
