for restricting the occurrence of this type of events. Resultantly, they established an organisation for keeping check and balance on the factors that could incite blood thirsty events again. This organisation is known as United Nations.

Has remained fail

Is not a sentence

Sadly, it remained fail to achieve its objectives. Currently, UN has remained fail to achieve its goals. Hence, it has become a toothless body. There

are various grounds that depict the failure of this international body. The continuation of traditional wars, civil wars and human rights violations induce the helplessness

of UN. Furthermore, conflicts and diplomatic enmity between nations apparently shows the ineffectiveness of this international organisation. The representation of west and the hegemony of P5 countries in UN also fall under this category. While many ~~are~~ disagree with this opinion and endorse that UN is still an active body for maintaining peace. According to them, it sends peace keeping missions, imposes sanctions on the countries, and discourages weapons of mass destruction. Another active body of UN that establishes peace is International Criminal Court of Justice. However, their arguments are not valid. Despite ~~imp~~ sending peace keeping missions, imposing sanctions, and discouraging nuclear weapons, peace has not been established in world. All of these initiatives of United Nation have some underlying drawbacks. In this way, UN has become a failed.

Organisation.

The institution of United Nations was established after the ~~occurrence~~ ^{After the world witnessed havoc of world war two} of second world war. On 24 October, 1945, it was formally ~~imagus~~ ^{inaugurated}. Its main objectives were to maintain universal peace, foster good relations between ~~states~~ ^{states}, and ~~avoid repetition~~ ^{mutual cooperation} among countries. ~~Unfortunately, it remained unable to completely achieve its objectives.~~

The first ground that reflects the ineffectiveness of international organisation is the continuation of wars among states. UN was aimed at preventing the wars among countries but it remained ~~powerless~~ ^{powerless} to do so. Currently, ~~many many~~ ^{many} states are engaged in war with each other. ~~The worst~~ ^{example} ~~example~~ ^{example} is of Israel and Palestine war. Similarly, Russia - Ukraine war is another example. Therefore, UN has become a helpless

body because of not restricting wars.

Building on the previous idea, ~~another concern of failure of this body is violation of human rights~~

~~in wars.~~ The safety of human rights is the duty of UN that is not being fulfilled. The violation of human rights are occurring in many wars.

Firstly, Israel is killing the children and women of the people of Palestine as reported by AL Jazeera.

Similarly, Russia is accused of violating human rights in Ukraine. In this way, the helplessness of UN becomes apparent.

Similar to the occurrence of traditional wars among countries, the civil wars within the countries also undermine the reputation of United Nations. Various countries are engaged in civil wars due to different reasons.

The civil war in Syria and Yemen are pertinent examples. Although, it is the objective of UN to prevent wars, it has not fulfilled. Hence, the failure

~~this body also becomes visible here.~~

The next objective that has not been resolved by this is resolving the conflicts between countries.

This institution is responsible for

finding a middle path for states

Some conflicts have long history and still these are causing destruction

~~Some conflicts are very old, and these have not been resolved yet.~~

A prominent conflict is Kashmir conflict between

India and Pakistan. It has been

77 years that this conflict still

finds no solution. Consequently, the

inability of UN to resolve conflicts

demonstrates its failure.

~~The pending conflicts among~~

states are not only a concerning

aspect of UN. The diplomatic enmity

between countries are reflect the

of Russia and USA is of great

importance. Both countries used to exchange heated arguments with each other. ^{I have examples} for instance, foreign minister of Russia has threatened to use nuclear weapon against USA. Similarly, India and China are also preferred their diplomatic rivalry. Resultantly, UN fails to establish peace between states.

Apart from this, UN is losing its importance because of excessive hegemony of P5 countries in decision making process. The P5 countries such as Russia, China, America, France and Britain exert their influence on ~~any decision. These countries hold veto power.~~ During Israel Palestine conflict, USA vetoed the ceasefire resolution. In this way, the power of P5 countries is leading this body to destruction.

In the same manner, it represents west more than East. ~~The western countries are more influential and influence in UN.~~ The four out of five veto-power countries are western

 The above paragraphs have
 proved that UN has become a toothless
 body. The following paragraphs will
 describe the opinion of opponents.

The opponent believe that
 UN is still ~~an active~~ ^{As it is in a continuous process to uphold} ~~Organisation~~
~~because it sends~~ ^{values of peace and calmness} ~~missions~~
 to ~~various~~ ^{crisis-ridden} ~~countries.~~ These
 missions are aimed at establishing
 peace in these countries. Since the inception
 of United Nations, many countries have
 received ~~peace~~ ^{peace} keeping missions. For instance,
 many African countries such as Ethiopia
 have benefited from these missions. Similarly,
 likewise, these missions are also sent
 to many Asian countries for stabilising
 their situation. Therefore, peace keeping missions
 ensure the activeness of UN.

Sanctioning is another tool which UNO uses

Day: _____

Date: _____

The second important feature that ensure the existence of UN is the policy of sanctioning the countries. The countries that ~~initiate~~ ^{inflict wars} wars are sanctioned by this body.

Recently, Russia is one of the ^{such} countries, facing sanctions. In this way, the activeness of ~~this~~ organisation comes into action by ~~sanctioning~~ countries.

Another point where UN is ~~actively engaged~~ for ensuring peace is ~~the~~ discouraging weapons of mass destruction. The countries that pursue nuclear weapons ~~face~~ sanctions from UN. Many countries are still facing sanctions. The ~~best~~ ^{best}-citing example is of Iran, facing sanctions. Hence, UN is ^{actively} discouraging nuclear weapons for promoting peace.

Many believe that ~~United~~ Nations has established International Criminal Court of Justice (ICC) for ensuring peace. The ~~ICC~~ ^{ICC} ~~is~~ ^{is} ~~not~~ ^{not} ~~yet~~ ^{yet} ~~established~~ ^{established}.

~~some~~ ~~maintaining~~ the peace of
 world. Its rulings are of paramount
 importance. Recently, it has issued
 arrest warrant for Russian President
 Putin for initiating war in Ukraine.
 This shows that UN is not a toothless
 body.

~~The above paragraphs~~
~~have summarized the views of~~
~~opponents. The following paragraphs~~
~~will provide a rebuttal to the arguments~~
~~of opponents for proving thesis.~~

The evidence of peace keeping
 missions for effectiveness of UN does
 not seem valid because these missions
 are accused of violation of ~~human~~ **Human's**
 rights. These missions do not fulfill
 the objective of UN. In many places,
 these missions have violated the
 basic right of people. ~~For instance,~~
~~the peace keeping mission in Sudan~~
~~was a total failure. UN~~ ~~has~~ admitted
 that this mission was involved in
 killing and raping incidents. Therefore,

UN still remains a toothless body.

Coming towards the argument of sanctions, wars remain continue despite imposing sanctions on countries.

Here, the basic objective of UN is not fulfilled. There are many wars that are still ongoing despite sanctions.

One of them is Russia-Ukraine war. Hence, UN is not in a position to perform its objectives.

As far as the check on nuclear weapons is concerned, the countries are still testing nuclear weapons. Hence the countries ignore the instructions of UN and pursue their interest. For example, North Korea is testing nuclear weapons without any hesitation. Consequently, the ineffectiveness of UN is revealed to the world.

The rebuttal to the last argument of sanctions is that the International Criminal Court of Justice has also remained unable to maintain peace in the world.

The rulings of ICJ are not taken seriously. For example, Israel has ignored ICJ ruling and remain engaged in bombing Gaza. Therefore, it has become a ~~to~~ dormant body.

Good attempt

In Conclusion, it becomes abundantly clear that United Nations has become a dead organisation because of not pursuing its objectives. Its ineffectiveness has become apparent at many places. Shockingly, it has failed to complete its purposes that were written in its charter. On the other hand, some argue that it is still an active body, and playing its role in maintaining peace in the world.

Plz write such paragraphs

In fact, their arguments are chequered and lack substantial evidence. Therefore, it becomes crystal clear that UN has become a dormant organisation. To strengthen the active role of United Nations, certain reforms are directly needed. Only reforms could convert

UN into an active body. These reforms include expanding veto power, initiating binding decisions and representing ~~of~~ global South. If these reforms ~~are~~ implemented, if the organisation could regain its lost reputation the day is not far enough when UN will become an active body.
