## ASSIGNMENT # 1

(CSS Past Paper 2019)

Precis Writing:

write title here

~~Modern educationists,~~ <sup>mod educationists</sup> ~~According to the~~ <sup>simplify this statement</sup> ~~writer, wrongly argue not to meddle with children rather than enjoying their company.~~

~~Children in fact~~ respond optimistically to elders if they are loved unconditionally. Contrarily, children never cooperate if elders try to implant social sense to control them.

The only right course is to treat them unconditionally with a genuine interest in them and any such teacher who does so work well with children without causing them any mental disturbance. <sup>sentence is too long</sup>

However, it is not possible for over-burdened <sup>teachers</sup> to maintain a natural liking for children. According to the author, education should only be a part-time endeavour to avoid fatigue which ultimately causes irritation despite the teacher's theories.

With ~~genuine~~ friendliness, rules for handling ~~naughty~~ children become unnecessary, as

affection and tact will guide the right decisions.

Title suggestion: ~~Positive~~ Merits of Enjoying Children's Company
