Countries, or organizations should analyze and identify the reasons of brain drain. And then should work to overcome the problems for the betterment of country.

Introduction:

Nelson Mandela say on poverty:-

"Overcoming poverty is not a gesture of charity, it is an act of justice."

Poverty is not a new issue nor it is fully settled one. Developed countries are dealing with it successfully. Whereas, underdeveloped countries are still struggling. Unfortunately, Pakistan is one of these.

Main causes behind poverty are socio-economic evils, underemployment, overpopulation, illiteracy and corruption. These causes are not new in nature but their intensity is far greater in Pakistan. These problems are not descended from heavens but they are man-made. So serious and honest efforts are needed to solve the issues.

Therefore, the main cause of this essay is to discuss the causes behind Brain drain along with their solutions.
