

We are not properly do cancelling of our Students, I mean we don't have the Proper Places and a Proper System to do the cancelling and tell our children about the importance of education: As we know that, in our rural areas the children are doing farming because they don't know about the significance of education, even though they don't know about what will they be, after getting a quality education.

As I mentioned, that rural part of our country is facing from illiteracy, so it is our responsibility to tell them about the Privileges and significance of education. Rural areas are the most important and wide areas of our country. If we want to make Prosperity and make our country stable so we must educate our children and guide them about the importance of education in their lives.

Importance of Education in Pakistan

Education is the third eye of a man. An education is very important for every man in the society. Being a Pakistani, it is ~~my~~ ^{our} responsibility to aware Peoples about the importance of education in their lives but we are facing many Problems to education our nation. one of them is Lack of money, not proper Cancellling and a huge rural Population.

As we know, that Pakistan is suffering from economical Problem due to instable Politics, less export and the intervention of military in our economic decisions because of these Problems, we don't have enough money to open high quality Schools, colleges and universities for the facilitation of our children. Where they will easily get a quality education without paying high fees.

Due to economical ~~Problems~~ Problems and lacks of quality School
