

Hamas has started its attack on Israel in October, 2023. What are the implications of this war worldwide?

### HAMAS ATTACK:

On October 7, 2023, Hamas has launched attack on Israel. The attack was broadly divided into two main phases. Hamas has launched air strikes by 500 rockets and short-range missiles. Also, 300 Hamas fighters crossed the Israel's border. 200 paratroopers also entered into Israel. These fighters attacked the military checkpoints and bases. These fighters also attacked the 'Yom Kippur' celebrations and captured 231 hostages in Gaza.

### PALESTINIAN GENOCIDE:

As a result of Hamas attack on Israel, Israel has launched ground operations in Gaza. Hamas has killed 1400 Israel's soldiers. Israel killed 29000 Palestinians. 70000 injured and 1.5m displaced from north to south of Gaza. 90% of buildings were destroyed or partially damaged. Israel has done it by attacking with bombs, tanks, missiles.

### EXPANSION of WAR:

Hamas has sent tunnels of arms 250-500 km in Gaza. Israel

has conducted its ground attack in  
Cuba. US are reluctant to go into  
the tunnels because of major surprise  
not by them - the major example of  
this is Vietnamese. The real war fought  
between the Vietnamese guerrillas and  
the US army. US army was defeated  
because of major attacks / surprises  
by the Vietnamese. Guerrillas, snakes,  
water, coconut, are waiting for them.

### DUPLICATIONS WORLDWIDE:

#### 1. BRAIN UNDER ATTACK:

Thames, Heather and Huddell are  
the prices of Iran. Iran has supported  
all the three prices with artillery  
short range missiles. All the three prices  
are directed against Israel. If US & U-  
S all attacked the Iran then there  
is greater than chance of initiation  
of war. And ultimately the war  
will expand.

#### 2. BLOCKING OF TRADE IN RED SEA:

Heather are attacking the  
US warships in the Red Sea. At  
a small Israel and US has deple-  
ted a large naval fleet in the  
Red Sea particularly concentrated  
in the Strait of Hormuz. Also

there more than 33% of trade occurs. Also if the war expands to the Iran then there is greater possibility that Iran will block the Strait of Hormuz because of its military presence there.

### 3. HALTING ARAB-ISRAELI TALKS

As a result of Hamas-Israel attack there is a greater chance of halting the negotiations with the Arab League. The Arab League wanted war, Bahrain, Iraq, & Jordan has started distancing their relations with Israel. Saudi Arabia has also halted its negotiations with the Israel.

### 4. CHANGING GLOBAL POLITICS:

US has reiterated its support to Israel. US has provided Israel with weapons, naval fleet and intelligence. Every single hand developed in Gaza is provided with by US. As a result of this attack long time countries has started distancing its relations. Egyptians, Russians, Presidents had refused to talk. I.e. Biden, etc. Mohammed Bin Salman put the Arab League to wait for a time.

### 5. RUSSIA and CHINA soft corner

- China and Russia retreated to solve this conflict in two steps: selective formula - at the same time both countries refused to clear the Hamas a jihadist organization. This shows their soft corner with the Moslem world.

### 6. BENEFIT TO RUSSIA:

Hamas attack in Israel has been fitted to Russia as a major beneficiary of Ukraine - Russia has been started revisiting its stance. US has deployed major part of its army to fight against Hamas as a result that US congress did not approve a support package for Ukraine. Benefiting Russia to advance more in Ukraine.

### 7. NEW WAR FRONT

US has a not enough military capacity to open a new war front against China. The military and financial support of us is largely consumed in Ukraine and Israel. It is not military and economically feasible for us to open a new war front.
