

# Over population

## Outline:

### 1- Introduction

#### Thesis statement:

Over population in Pakistan is one of the major issues. It is a huge barrier in the progress of the country. The government of Pakistan is failed in the management of the controlling over population which ostensibly makes the future the country jeopardized.

### 2- The historical perspective of population since the inception of Pak

→ In 1947, 32.5 million, in 2023, 241 million  
→ 5th largest population of world

### 3- Causes of the overpopulation in Pakistan

- Lack of family planning
- The desire for male child
- Early marriages in Pakistani societies
- Illiteracy
- The notion of increasing Muslim Ummah

### 4- Effects of the overpopulation in Pakistan

- Burden on <sup>the</sup> economy of the country
- Lack of job opportunities
- Increase in the poverty
- Increase in various crimes
  - street crimes

- (ii) Robberies
- (iii) Burglaries
- (e) Increase in corruption

## 5- solutions to overcome overpopulation

- (a) Effective family planning
- (b) spread of awareness through seminars
- (c) spread of awareness through social media
- (d) Application of stick policy from government
  - (i) China: one child policy
  - (ii) Pakistan: Two/Three child policy

It is very easy to lose the activeness what one needs to do is nothing. A player who used to play a very hard game and also was very fit physically can become fat for not practising in the same way. Same is the case with a state it can lose its stability when its government does not run the administration properly. And the public of the state also collaborates negatively and does not play their role in the prosperity of country. Pakistan was a fit country since its inception but with the passage of time a huge ball of snow of the lack of awareness about the family planning kept on getting increased in the shape of a large family. In addition, the eager desire, in the patriarchal society, for the male child along with the early marriages in the Pakistani societies left a land mark on the increment of the population. This manifests the crystal clear ratio of the illiteracy that the majority of the people in the country ~~are~~ lack the awareness in this regard. Most importantly, the notion of the 'increase muslim Ummah' is the dimension which is causing the overpopulation with the belief that 'Allah Almighty has sworn to nourish so the Ummah of Prophet (PBUH) must keep on increasing. There will definitely be a great burden on the economy of the government and <sup>when</sup> people ~~will~~ lack the job opportunities, a paramounting increase can be visualized in the rate of poverty, which obviously cause the various crimes in the society. Overpopulation is one of the major of Pakistan. It is clearly a huge barrier in the progress of the country. The government of Pakistan is failed in the management of controlling the overpopulation which ostensibly makes the future of the country jeopardized. Thus, there should be a positive trajectory to overcome the population in Pakistan.
