

Body Paragraph of Essay Writing

Topic:

Poor Economic growth is the
Cause of price hike in Pakistan

The poor economic growth among various causes is the main cause of price hike in Pakistan. It is because Pakistan enjoyed the stagnant economic growth for last 2 decades. However, Pakistan had ideal economic growth in the first four decades since its inception but political conflict and bad economic policies derailed the economic prosperity of the country.

According to economic surveys of Pakistan, the country's economic growth is reversed from 5.9% in 2011-12 fiscal year to 0.2% in 2023 fiscal year. As a result, inflation has been reached at its historical peak.

Comprehension

i) Why does the government allow payment to be made in paper notes?

The government permits people to pay money in paper currency. The reason behind it is that it saves people from difficulty to carry heavy metal. It is because paper is lighter than coins and easily countable.

ii) If metal so cumbersome, why should not have only paper money? Why we not print as much as it possible?

It is impossible to money in paper form because if it is done then the prices of things is difficult to maintain at their proper natural level. On the other hand, if the government prints too much paper money the prices of the commodities go up.

ii) What is the real use of money?

The real use of money is to buy the things that is necessary to

sustain life on earth. These things includes food, cloths, books, houses and many others.

2) **Why should the prices of commodities go up when there is plenty of paper money?**

When the more money is printed then the value of currency is decreased due to its ample amount. on the other hand, due to plenty amount of paper money the scarcity of commodities occurred. As a result, their prices are increased.

Precis writing

Title:

Role of Character in
Developing Strong Social
Relations.

Character plays more important role than personality in developing social relations. Self independence is the key element for establishing effective relations. However, it is partially true that self-mastery comes in an individual if he knows himself. It is the self-recognition which develops human personality. In this way, the freedom which makes human choices ~~are~~ rational. Nonetheless, the weak character becomes as a barrier in the way of man's success. In contrast, robust character always leads toward a successful life. It also provides the concrete foundation of productive and long lasting human relation.

Essay Topic:

Globalization and National Economics

Thesis Statement:

No doubt, globalization plays an important role in fostering national economy of a country. Despite of this, there are negative impacts of globalization on national economy. However, by making proper policies help to mitigate these impacts.

Translation

The population of Pakistan has been crossed 230 millions and everyone, it is know that exorbitant increase in population gives birth to many problems alongwith poverty. On the other hand, the population of Britain was not more than 50 millions at the time of Pakistan's creation but today, its population has increased only 20 millions. Despite of this, people all over the world has been migrating toward United Kingdom for permanent residency. Every third person in London ~~are~~ is born outside the Britain. The 2.5 millions individuals of London are immigrants out of 7.5 million population. If the population of United Kingdom was 50 millions 74 years ago but today, its population has increased only 40 millions and 300 languages are spoken here.
