

MY CITY

"One great building does not make a great city" (Thomas Heatherwick).

City is a place where people have access to all the facilities and necessities of life. My city Peshawar is a very beautiful city, located in Khyber-Pukhtoonkhwa also the provincial capital of the province. My city also remained the capital of Gandhara Civilizations. Geographically my city is very important, because it connects with Afghanistan through Khyber Pass and Central Asia for trade. There are many historical places in my city, like Islamia College Peshawar, Qilla Bala Hissar, Qissa Khwani bazaar any many more. My city is famous for its food, its culture; and its hospitality. I love my city, my city is in one of the best cities in Pakistan.
