

# The threat of Global Warming and ways to counter it.

## Brain storming

# Outline :

## 1- Introduction:

- 1.1 - Attention Grabber
- 1.2 - Definition and brief overview of Global Warming
- 1.3 - Thesis statement :

## 2- Main Body :

### A) Global Warming as a threat

#### 2.1 - Existential threat

- 2.1.1 Droughts
- 2.1.2 Water scarcity
- 2.1.3 Heat waves
- 2.1.4 Diseases

#### 2.2 - Environmental threat

- 2.2.1 - Wildfire
- 2.2.2 - Floods
- 2.2.3 - Hurricane, Tsunami and severe storms
- 2.2.4 - Glaciers melting
- 2.2.5 - Rising sea level and increase in acidity of sea water

#### 2.3 - Biodiversity loss

- 2.3.1. loss of species i.e Coral reefs, polar bears etc
- 2.3.2. Habitat disruption

## 2.4. Economic threat

2.4.1. Infrastructure loss

2.4.2. Displacement

2.4.3. poverty

## B) Ways to counter Global Warming

### 2.1. limiting the emission of Greenhouse Gases

2.1.1 Using Renewable energy source

2.1.2. limiting the use of fossil fuel

2.1.3. climate friendly transport and machinery in industries

### 2.2 International cooperation

2.2.1. Afforestation and Reforestation

2.2.2. Green building

2.2.3 International agreements on climate change.

### 2.3 Education and awareness

2.3.1 Influential personalities

2.3.2 Use of multi-media

2.3.3 Inclusion of content on climate change in schools curriculum

3- Conclusion : Keep writing on different themes
