Essay At only 21, Jameel is already a mother, having been a victim of early child marriage. Additionally, she faces domestic her hisbord does on Jameels earning from working Ahrough vocational vocational center, where she sawing and stitching. She hopes that by acquiring the skills, she will be earn more for herself and her of There is no doubt the education changes fortunes, and specific vocational education gives people economic independence by providing them skills and technical knowledge. Vocational be definer as an educational programs which provides training for a specific vocat Industry or any other field Vocational only beneficial for individual but it also contributes to a country's economy Unfortunately, like many other developing countries, Palaistan is also grappling with macroeconomic unemployment, boyerty one vialin, and low productointy. In fact, it has also proven social problems like

crime, terrorism and other issues caused by: poor economic conditions. Additionally, vocational education provides updated knowledge needed for the industries, increases to women empowerment and helps to boost dollar reserves by offering coursess like a-commerce and free landing Moreover, its short and practicals correction provides industries with more labour power in a short period of time. It is clearly visible from the benefits of vocational education that it provides a gate way for economic growth in Pakista
