

Immoral Response of Israel

Israel has kept on doing genocide in Gaza and now in Rafah in spite of the fact that most of countries are against it. Few days ago, International Criminal Court (ICC) called for an arrest warrants to be issued for Prime Minister and Defence Minister of Israel as well as three Hamas leaders. On Friday, International Court of Justice (ICJ) called Israel to halt its atrocious activities in Rafah. The Israel's response to the world was not surprising, as it called these orders just "morally repugnant and disgusting". Israel is fearless in the matter of world organisations and countries in the matter of Rafah rampage because it is backed up by the powerful United States of America and its some of its powerful Western allies. The Zionist state, Israel, knows that it can do anything in the world and that it can literally get away with murder. Moreover, the ICJ orders are binding.

it can not enforce them. Despite the attempts made in United Nations to ~~halt~~^{stop} Israel from doing ferocious activities in Gaza and Rafah, Israel is still on its way of genocide there.
