Population Explosion

One of the most daunting challenges the developing states are facing today is rising population. The population of more than 240 million, Pakistan is also included among these states. The annual population growth rate in Pakistan is 2.4 percent, which made the country fifth most populous in the world surpassing Bangladesh. However, with worrysome economic crises, Pakistan is also facing high level of poverty and unemployment which are the causes of over-population. Astonishingly, about 10 million people are at risk of slipping into poverty due to lack of basic resources, according to a report of World Bank. Moreover, more than 8 million youth enter the job market of the country every year. Among these, a handsome number of youth is graduated from a renowned and prominent institutions despite this, they are

jobless. To pre-empt the alarming situation and the resultant social ills, people need to understand ~~th~~ and act accordingly, ^{to overcome} ~~for~~ future challenges and issues. The state's current policies on controlling population have shown no satisfactory result. The state need to critically chalkout strategies and pragmatically implement those approaches to counter the prevailing issues and make the future of the country stable and resourceful. Moving with the existential challenges and not taking ~~the~~ necessary measures, the situation would further be going towards disruption and ~~h~~ to an uncontrollable and irreparable end.
