Introduction

The modern world is an unending project. It is not fixed, it is not complete, and it is not final (Tony Blair). This quote clearly illustrates modernity is an unending project and modernization will continue in the world. Moreover, due to this modernity, human lives are advancing day by day and taboos of society are also eliminating. On frequent bases, new ideas revolutionize the world. Furthermore, modernity is giving birth to new ideologies, and curtailing social disparities. As modernism is an unending project, it impacts life on different levels. For instance, economies are also modernizing and politics has been revolutionary. Additionally, technological advancement is occurring; Upgradation is also occurring in hospitals. Moreover, Health care becomes a dominant priority of the modern world. In the agriculture sector, the production increases due to modernization in the sector. However, there are different remedies that can further help to make

Date: _____

with modern world in modern time.

Some of them are: focusing on modern technologies and skills; respect the others on social media and media platforms; acceptances of other ideas on media platforms and third countries cooperation with first world. However, Modernity is an unending project because humans adapt new ways of life with modern times. Moreover, modernity further impacts different aspects of life, advancing these aspects with modern ones. However, while marching shoulder to shoulder with modern era, one should equip oneself with modern tools and tactics.

Modernity has been profound impacts on human lives. The advancement in human lives occurs due to modernity. Additionally, in this new modern era, everyone is in this struggle to equip itself with modern skills and tactics. As Angela Merkel has rightly said, "Modernity is an endless journey of innovation and adaptation, a relentless pursuit of progress." However, it could not be denied that modernity always brings positive change in the world.
