(A) Economies are modernized.

(B) Politics is totally revolutionized

There are different remedies that can help to walk with modern world in modern time

(A) Adaptation of modern technologies or skills is need of the hour.

(B) One should not violate the other dignity on different platforms

Conclusion

Introduction

"The modern world is an unending project. It is not fixed, it is not complete, and it is not final (Tony Blair)."

This quote clearly illustrates modernity is unending project and modernization will continue in the world. Moreover, owing to modernity, new ideas are emerging and revolutionizing the world. Modernism is also giving birth to new ideologies and that why new ideologies flourish in the society. Moreover, as modernism has been changing everything, so different life aspects also receive profound impact. For instances, Economy and politics completely revolutionized. But at same time, there are some remedies that can be helped to walk with modern time. As Adaptation of modern technologies or skills,

one should also not violate the other dignity on different platform. However, modernity is an emerging project because humans adapt new ways of life with modern times. Moreover, modernity further impacts different aspects of life, modernizing these aspects. However, while marching shoulder to shoulder with modern era, one should equip oneself with modern tools and tactics.

- There is no doubt that modernity has profound impacts on human lives. As Angela Merkel has rightly said, "modernity is an endless journey of innovation and adaptation, a relentless pursuit of progress." Moreover, it could not be denied that human social progress has happened due to modernity and more new innovation are coming out day by day. So it is a clear evident that modernity is emerging project. Additionally, human progress will not stop until modernization process is going on. However, there are some tactics which are helpful to walk with modern world. One must adapt it.

Date: _____

With advent of modernism, new ideas have been emerging that are revolutionizing the world. Before modernity, new ideas were not encouraged although sometimes the people finished or executed the free thinker or whoever introduced new idea. However, due to modernity, science has been playing significant role in introducing new ideas to revolutionized the world. For instance, Albert Einstein theory of relativity which revolutionized understanding of space and gravity. Moreover, new philosophy of human existence was also accepted by the people without any hesitation. Friedrich Nietzsche's traditional morality critique widely accepted. However, modernism has provided a safe ground to new emerging ideas.

As the modernism has played a significant role in emerging new ideas, at same time, modernism has also provided a safe passage to new ideologies flourishment. Whenever new ideologies are introduced in a society for its betterment, with same time, a bundle of criticism also starts. However, due to modernity in late 19th and earlier

Twentieth century, new ideologies arose
planted across the world. As
the feminist feminism movement started
in late 19th century, providing
women their due rights, this movement
shaped as ideology related to women.
Moreover, Existentialism started
in Europe and covered the whole
world; this philosophical movement
basically depended on individual
freedom, existences and choice. In
the nutshell, modernism also helped
to new ideologies to apply on
modern world.

With providing space to new
ideology for spreading, modernized
economies also emerge. This new
modernized economies have rejected
the traditional ways of controlling
supply and demand or export
and import. However, a significant
level of change can be seen in modernize
economies. Digitalisation is introduced
in modern economies; Artificial
Intelligence further enhances this
digitalisation of economies. Moreover
Online transactions introduce in
modern economies. In the nutshell,
due to emerging of modernity, the
economies of the world have also

received its impacts.

As modernity has revolutionized the economies, politics also change from large extent. Traditionally, politics were confined to some certain limit and never experienced, before modernity, extension. However, with modernism new key areas have been emerged in politics. For instance, Geo politics in which a country makes relations according to its geography significances. is new terminology in modern political discourse. Moreover, sea politics is also new terminology introduced with modernity. in which a ^{state} involve in ocean politics etc. In ^{the} nut shell, politics in modern times from large extent revolutionized.

With modernism in politics, there are some adaptation measures that can be help out in dealing with modernism. Formerly, people did not require any tools or technologies to walk with following of time. However, modern human also needs some technological understanding of modern skills to ~~see~~ ^{walk} with modern time. For instances, one must know how to use modern

technology as using of mobile phones. One should keep himself aware of biotechnological advancement, to rescue the environment from hazardous calamities. Moreover, one must learn digital tool management for own benefits.

In the nutshell, adaptation of modern technologies or skill is need of the hour.

With adaptation of modern technologies, one should not violate the other dignity on digital platforms. In modern world, everyone is busy with oneself and socially disconnected. This attitude lead to

Along with adapting modern technologies, one should not violate the dignity of other. On different social media platform, people usually ignore this fact that social media or digital media must use in limits; otherwise the other dignity may be compromised. Different news reports clearly illustrate that particularly with AI emergencies, people use AI tools to violate one dignity easily. For instances, deep fake technology is using for multiple purpose.
